

# Team Meeting 3

Minute Taker: Xin Wang

3 June 2020

## 1 Attached Meeting Documents

All attached documents can be found within the same folder as meeting minutes.

## 2 Agenda 1: Xin's Repatriation Flight

### 2.1 Discussion

- Xin Wang has been contacted by the South African Embassy of a repatriation flight from Germany. Current date has not been set but the embassy has notified that it is in talks with the German government.
- There is no guarantee there would be WIFI within the mandatory government quarantine facility.
- Team has finished basic component support and the deadline is nearby.

### 2.2 Conclusion

- The remaining two on the team agreed that they will continue on and work on testing and advanced component support.
- Xin Wang will notify the professors when there is a definite date on the flight.
- The report will be prioritised by Xin Wang to ensure reports are finished.

## 3 Agenda 2: Program Status

### 3.1 Discussion

- Basic requirements of the program are completed.
- Testing and advanced components are not completed yet.

## 3.2 Conclusion

- Adam Rehman and Brandon Cann will handle testing, adding testing results and researching into advanced components.
- Xin Wang will finish report and look into Newton Raphson Iteration.
